Sir:

In response to the Office Action dated December 4, 2001, Applicant submits the following remarks.

REMARKS

Claims 1, 21, and 22 stand rejected under 35 U.S.C. § 103(a) for obviousness over the teachings of either U.S. Patent No. 6,138,783 to Chene et al. (hereinafter "Chene") or U.S. Patent No. 4,159,126 to Raleigh. In view of the following remarks, Applicant respectfully requests reconsideration of these rejections.

Claim 1 is directed to an industrial truck having a frame and a rear weight separate from the frame and connected to the frame. An internal combustion engine is mounted on the rear weight, with the rear weight positioned between the engine and the frame such that vibrations from the engine are transmitted from the engine to the rear weight and from the rear weight to the frame.

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to: Commissioner of Patents, Washington, D.C. 20231
